

## BAILEY HELICOPTERS LTD. INSTALLS ELITE S623 Helicopter AATD

April 23rd, 2013

Bailey Helicopters Ltd. recently installed an ELITE Evolution S623 Advanced Aviation Training Device (AATD) Helicopter Simulator at the Fort Saint John, British Columbia, Canada location. The single-turbine Eurocopter ASTAR 350B flight simulator will enhance the ability to take the safety and service to new heights with the latest pilot and crew training. The simulator training will provide scenarios emphasizing human factors, obstacles, environment control, crew resource management, equipment management, situational awareness, and ensure high quality training for pilots and crews.

Bailey Helicopters Ltd. (BHL) is a company providing charter helicopter services throughout Northern British Columbia and Northwestern Alberta. Bailey has an exceptional reputation for safety and customer service and has been in business for nearly 25 years. Bailey operates a diverse fleet of 24 helicopters including AS 350, Bell 206, Bell 206L, Bell 212, and R44. Current operating bases include Fort St. John, Dawson Creek and Fort Nelson, British Columbia.
