

## **NOW AVAILABLE! ELITE 430W GPS NAVIGATION DATA UPDATES**

Update ELITE Core and Premium Version 8.6, PCATD, BATD and AATD software containing the virtual Garmin 430 WAAS GPS with current Jeppesen data.

The cost to update GPS nav data is \$395 per update including remote installation. You decide the frequency (monthly, quarterly, or yearly). Internet connection on the computer running ELITE software is required. After purchasing the data update, ELITE will schedule an install time to access your computer remotely. It is as simple as that.

Updates are available now at <https://www.flyelite.com/shop/gps-virtual-nav-data-update>.

**NOTE:** This is data update for the virtual Garmin GPS only and does not include ELITE scenery or FAA navigation data.
