

MEDIA RELEASE FOR ELITE SIMULATION SOLUTIONS AG

December 10th, 2015

Following up on ELITE's Media Release issued on April 14th, 2015, ELITE Simulation Solutions Czech Republic office proudly announce that the Czech Athletic & Fotball Club (ČAFC) – division U7 players, sponsored by ELITE have won one gold and one silver medal during the course of the current season soccer tournaments.

Pictured below are the current champions, proudly displaying their medal along with the cup. ELITE Worldwide, congratulate the entire team and coaches for this outstanding achievement! The original press release is copied below, for reference.

April 14, 2015 – ELITE Simulation Solutions Czech republic announces the support of the Czech Athletic & Fotball Club (ČAFC) – division U7 – our youngest and most devoted soccer players.

Sport should be an integral part of healthy lifestyle, especially nowadays. „I always appreciate children who do sport regularly. Football as a highly complex sport is a good example of teamwork, challenging training, discipline and dedication“, said Martin Krouza.

„We at ELITE Simulation Solutions in Czech Republic always prefer CAVOK in real life instead of difficult IMC conditions on our simulators. Playing a football is an ultimate MCC experience, where every fielder relies on each other. Enjoying the life, fellowship, variable weather conditions and fresh air, is definitely amazing part of every soccer game and that's the main reason of our support we provide to youngest athletes“, said: Martin Krouza, Sales Manager from Elite Simulations Solutions in Czech Republic.
