

PRESS RELEASE

Elite FNPT II certified at Flugschule Berlin

Berlin / Dübendorf, January 2004 –Elite Simulation Solutions AG has installed an Elite Evolution S812 FNPT II at the premises of Flugschule Berlin in Schönhagen in mid January. The STD (Synthetic Training Device) has been certified by the German Luftfahrtbundesamt only a few days after installation and is already fully operational and integrated in the flight training syllabus of the operator.

The Elite Evolution S812 FNPT II (Flight and Navigation Procedures Trainer) has been customised by the Swiss-based company to replicate a Baron 58 and features a three-channel external visual system. The new STD meets the requirements of JAR-STD 3A and enables FSB to make use of the full credits defined within the JAR FCL.

Elite Simulation Solutions AG is the leading developer and manufacturer of PC-based flight simulation systems. The company has more than 14 years of experience in developing products for instrument and flight training. With its Elite Evolution product series Elite is offering modular and cost efficient solutions meeting the requirements of JAR STD 2A, 3A and 4A.
